

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders
AZZ Inc.
Fort Worth, Texas

Opinion on Internal Control over Financial Reporting

We have audited AZZ Inc.'s (the "Company's") internal control over financial reporting as of February 28, 2019, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO criteria"). In our opinion, the Company did not maintain, in all material respects, effective internal control over financial reporting as of February 28, 2019, based on the COSO criteria.

We do not express an opinion or any other form of assurance on management's statements referring to any corrective actions taken by the Company after the date of management's assessment.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) ("PCAOB"), the consolidated balance sheets of the Company as of February 28, 2019 and 2018, the related consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for each of the three fiscal years in the period ended February 28, 2019, and the related notes and financial statement schedule (collectively referred to as "the consolidated financial statements") and our report dated May 17, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying "Item 9A, Management's Report on Internal Control over Financial Reporting". Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit of internal control over financial reporting in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the company's annual or interim financial statements will not be prevented or detected on a timely basis. A material weakness was identified regarding management's failure to maintain effective controls pertaining to the Company's preparation and review of its revenue reconciliations. This material weakness was considered in determining the nature, timing, and extent of audit tests applied in our audit of the consolidated financial statements for the year ended February 28, 2019, and this report does not affect our report dated May 17, 2019 on those consolidated financial statements.

As indicated in the accompanying "Item 9A Management's Report on Internal Control over Financial Reporting," management's assessment of and conclusion on the effectiveness of internal control over financial reporting did not include the internal controls of Lectrus Corporation, which was acquired on March 22, 2018, and which is included in the consolidated balance sheet of the Company as of February 28, 2019, and the related statements of income, comprehensive income, shareholders' equity, and cash flows for each of the year then ended. Lectrus Corporation constituted approximately 2.0% of total assets as of February 28, 2019, and 2.6% and 2.2% of revenues and net income, respectively, for the year then ended. Management did not assess the effectiveness of internal control over financial reporting of the acquired entity because of the timing of the acquisition. Our audit of internal control over financial reporting of the Company also did not include an evaluation of the internal control over financial reporting of Lectrus Corporation.
